Looking Forward to 2010!

We are constantly reminded by the media daily with the Economy & "Recession" H1N1, Obesity & "Diabetes". Canada is doing much better than the US recovering from the recession, which is a blessing! 2010 will definitely be a better year. The Winter Olympics is just a month away, and we will be hosting visitors from all over the world. Vancouver, Richmond and Whistler have a new face. There are many upgrades in terms of transportation and infrastructure to accommodate the visitors & games. This is exciting! H1N1: Each of us makes our own decision dealing with H1N1. Some prefer the H1N1 vaccine, others practise prevention. I choose the later. No matter what we choose, there are basic rules to follow and these are important. A healthy diet, lifestyle and quality of sleep are also very important. I have researched a lot of excellent new products this year to help Protect Your Family and Yourself from H1N1 and these are important to take especially if you practise prevention. There are also many products available if you have the cold and flu to help reduce length and severity of the symptoms for children, teens, adults and the elderly. Obesity & "Diabetes": Vancouver Sun, 11/5/2009 "If children obesity had the status of a disease, it would be classified as an epidemic". According to a 2004 Statistics Canada study, 18% of Canadian children aged 2-17 years old, or about 1.1 million, were overweight and 8%, or 500,000 were obese. That compares with 12% of children who were overweight and 3% who were obese in the 1978-79 Canada Health Survey. Do the math, the combined overweight/obesity rate of 26% was 73% higher than the 15% 25 years ago! This is not surprising when kids don't eat enough fresh food and spend too much time watching TV and playing video games. According to Statscan, more than 60% of Canadian children do not consume 5 servings of fruits. U of Alberta and Harvard demonstrated an association of poor body image and BMI (body mass index) and found it affected boys and girls alike and that negative feelings about their bodies are manifested at an early age. Unhappiness with their bodies can lead to low self esteem, poor nutrition, eating disorders and unhealthy weight gain in adult life. Schools are trying to educate our children, but ultimately, it's up to the parents to show children how to care for their bodies through diet and exercise and help them to feel good about themselves. Please make 2010 the Parents' Resolution to bring up healthy kids and, ultimately, become healthy adults!

EFFECTIVE & VERY HOT!

Hyaluronic Acid "This amazing molecule can erase years from your face, protect your joints and more!" - Woman's World, Dec. 15/03, Alive Magazine 8/04.

Our bodies naturally produce about 3 grams of HA daily when we're young. Unfortunately, the ability to produce HA drops as we age. In the past, the only way to get more HA was by injection, but it's now possible to get HA's benefits from a pill. And with just a few capsules a day, you can: **"Banish wrinkles."** Taking HA for just 4 months boosts collagen production almost three-fold, resulting in firmer, smoother, more youthful looking skin. "Speed healing and prevent scarring, ease joint pain and improve your vision," according to Woman's World. **95% pure Hyaluronic acid**, 50 mg. Most on the market are from rooster comb/chicken source and only contains 15% HA. This product is extracted by bacterial fermentation from Europe & is highly absorbable. Stay youthful and healthy with this incredible product!

Woman's World 7/12/05. The Magic Dose: Maybe you have taken chromium picolinate before and you haven't lost much weight or fat. David Katz, MD, Director of Yale School of Medicine answer is this: (according to Woman's World) Dosage was too low to be effective. Dr. Katz recommends 800 mcg per day to be effective. Chromium works by turning off sugar & carb cravings. Chromium means less insulin, and less insulin means less hunger. Chromium burns fat and builds lean muscle. When compared to Calcium alone, adding green supplement proved three-four times more effective at stimulating osteoblast, cells that build and repair the internal micro-architecture of bones.** Osteoporosis affects 25% of women 50+, according to Osteoporosis Canada, when osteoblasts activity slows down and can't keep pace with the increased activity of other cells called osteoclasts, which tear bones down as part of the body's natural regeneration. **Dr. Lao used Green+ Bone Builder in her study. One serving of Green+ Bone Builder has full serving of Greens+, and 500mg of 3 absorbable Calcium, magnesium, D, C, B, antioxidant, boron etc. Also available in tablets or capsules but you need to add Green+ supplement to maximize the effect.**

**ARE YOU
TOO
ACIDIC?**

Morning Rise & Shine! Energize * Alkalize * Cleanse * Hydrate! Do you get up in the morning with the following: **Fatigue? Bad Breathe? Joint Pain & Stiffness? "Need" for Caffeine? Indigestion & Bowel Issues? Weight Gain and Low Moods?** These are usually signs of **toxicity or acidic waste accumulating in the body. An imbalanced diet high in acidic food (animal protein, sugar, breads, cereals, colas, caffeine, fried or processed foods) can cause far-reaching damage to our health. Ratio should be 25% of acidic foods (above) to 75% alkaline foods (fruits and vegetables) to maintain pH 6.8 & 7.2.** Unfortunately, the reverse is true for many people causing alkaline minerals – calcium, potassium, magnesium to "leach" from the bones and vital organs in an attempt to "alkalize" the body's fluids and balance pH. Acidic wastes build up in the cells and tissues causing above problems. **Morning Rise & Shine – a delicious lemon, aloe and mineral drink with alkalinizing minerals** helps to balance your pH helping to remove toxins and lower acidity to **prevent acid reflux and other related problems above.**

AMAZING BRAIN FOOD!

Phosphatidylserine(PS) - Boost Brain Power! You just misplaced your glasses, again. You were introduced to someone only yesterday and you can't recall their name! Sound familiar? The sobering truth is that as we age, we can lose over half of our ability to perform tasks related to memory, learning and concentration. This process in cognitive decline can already begin as we hit our forties! Phosphatidylserine or PS is a nutrient that shows much promise in improving cognitive function in most people, but esp as we age. PS is a building block for nerve cell membranes which revitalizes all nerve cell functions and is highly concentrated in brain cells. PS give brain nerve cells renewed vigor and membranes and facilitate energy across the entire cell. Numerous double-blind studies with as many as 425 people show significant improvement in even severe cognitive impairment.

STUDY FINDS CLA WORKS!

CLA (Conjugated Linoleic Acid) – “Supplement Helps Cut Fat, Study Finds” National Post 12/6/06; Van Sun, 12/23/06 & PBS TV broadcast Dec/06. Researchers at the Univ. of Guelph & Univ of Wisconsin-Madison, published in the International Journal of Obesity **in a six month study, found the group taking 3.2gms (3,200mg) daily of CLA lost 2.2 of fat with a tendency to shed it from the abdomen. The CLA group lost weight despite reporting 40% decrease in physical activity over six months.** "Despite no difference between the CLA and the placebo group with regards to calorie intake or physical activity throughout the study, the CLA group still managed to lose weight prior to the holiday season and didn't gain any weight over the holidays", said Andrea Buchholz, a professor of nutrition at Guelph Univ. She also said **CLA “increases fat-burning in the body”, and “It also keeps fat cells from proliferating and it causes pre-fat cells to kill themselves”.** She would still remind customers to continue with **exercise and dieting “You want to maximize it's effectiveness”.**

DON'T EAT CARBS WITHOUT THIS

ADDICTED TO CARBS? TRY PHASE 2™ – Starch, carbohydrate and calorie blocker. Are you trying to lose weight? But **love Pizzas, Breads, Pastas, Fries and lose weight doing it? Sounds Impossible?** This is how it works ... with Phase 2. Since starch makes up 25%-33% of most diet, taking Phase 2 will neutralize about 375 to 495 calories a day even if make no other changes. That's enough to lose a pound every 7-9 days. You will lose more if you make a few simple switches. Phase 2 means "dieters only have to shift calories not eliminate them", says Dr. Rosen Blatt. "You shift your diet away from excessive non-starch calories, such as those in fat and sugar, and compensate by consuming more starch". While starch and sugar are both forms of carbs, calories in sugar are NOT affected by phase 2. When it comes to **food like bread, pastas, Phase 2 will neutralize 75% of their calories leaving you with a far lower net calories intake than before.** This effect is **INSTANT AND SAFE!** Sold in Hong Kong as "Extrim" for double our price!
