### HEALTHY SUPPLEMENTS & FOOD FOR WINTER BLUES, MOODS & MORE

Dr. Brenna Jacks, ND, 11/2010 Alive Magazine has some excellent suggestions for supplements and food to improve the above condition. Does your mood improve after you eat a proper, balanced meal? This is due to the influx of vitamins and minerals your brain needs to make you feel good. If your lifestyle doesn't allow you to eat as healthy as you wish, there are some supplements especially helpful to beat the winter blues. Vitamin D deficiency is linked to lower moods and an increased risk of depression. Research on Vitamin D to improve mood is still underway, but it seems like a safe treatment and is cost-effective. Cod Liver Oil contains high Vitamin D levels. Vitamin D supplements in pill or liquid is readily available. When D is low, your calcium levels also may suffer since vitamin D is required for calcium absorption. Another mood enhancer is 5-hydroxytryptophan (5HTP). It's a precursor to serotonin, a responsible for balancing mood, sleep and hunger. To elevate serotonin levels, 5HTP supplementation is an option. Consult your health practitioner for a proper dose and to avoid potential drug interactions. Adding whole grains and nuts to your diet also boosts your serotonin. Omega-3 oils have also been found to support healthy mood and thought patterns. Recent studies found that EPA in fish oil must be present to help elevate mood, not just DHA. Omega-3 oils are found in salmon, mackerel, herring, sardines & walnuts. B complex vitamins are important to regulate the nervous system and for mental and emotional well-being. Good winter foods high in B vitamins include oats, beef, turkey, potatoes and legumes. All supplements mention above are all featured in this flyer.

### Hyaluronic Acid "This amazing molecule can erase years from your face, protect your joints and more!" -

Woman's World, Dec. 15/03, Alive Magazine 8/04.

Our bodies naturally produce about 3 grams of HA daily when we're young. Unfortunately, the ability to produce HA drops as we age. In the past, the only way to get more HA was by injection, but it's now possible to get HA's benefits from a pill. And with just a few capsules a day, you can: **"Banish wrinkles."** Taking HA for just 4 months boosts collagen production almost three-fold, resulting in **firmer, smoother, more youthful looking skin**. "Speed healing and **prevent scarring, ease joint pain and improve your vision.**" according to Woman's World. **95% pure Hyaluronic acid**, 50 mg. Most on the market are from rooster comb/chicken source and only contains 15% HA. This product is extracted by bacterial fermentation from Europe & is highly absorbable. Stay youthful and healthy with this incredible product!

**RECURRING URINARY TRACT INFECTION?**

**D-Mannose – Are you plagued with recurring urinary tract infections that antibiotics never seem to completely cure? Or do you hate the idea of subjecting your body to another round of antibiotics? D-Mannose just might be your answer!**

Every year millions of people (mostly women) suffer with urinary tract infections (UTIs). Nearly 90% of these infections are caused by the bacteria E.coli. Overuse of antibiotics can encourage the mutation of bacteria, creating antibiotic-resistance strains. Good news is **you may never need an antibiotic for a UTI again!** D-Mannose is an all natural product which may prove just as effective as an antibiotic. **It serves as a kind of "magnet" in the urinary tract, attracting any present E. coli bacteria and keeping it from attaching to the bladder lining and dislodging any bacteria which are already attached!** The bacteria "cling" to the D-Mannose molecules, and are flushed out with the normal urine flow. **Bingo!**

### Certified Organic Vitamin D3 Liquid – 500 Servings of 1,000IU!

New research is revealing that Vitamin D is not just for bone health. It plays critical roles in **“health of the brain and nerves, the cardiovascular and immune systems, and in pregnancy and child development. Virtually every cell in the human body has receptors for Vitamin D because is not just a vitamin, it is also a hormone that affects cellular production of important proteins and peptides and regulates many genes, including those involved in cancer.” (NF article).** Although we can get Vit D from the sun, there is a deficiency in Vit D because many people now avoid exposure to sunshine due to risk of skin damage from UV rays. **In Canada, far from the equator, the sun is not strong enough to stimulate Vit D production from September to mid May leaving us susceptible to increased incidence and severity of colds, flus, and infections, and increasing risk of degenerative diseases. Those with osteoporosis and depression can definitely benefit from taking this.**

**LOSING YOUR MEMORY?**

**Phosphatidylserine(PS) - Boost Brain Power!** You just misplaced your glasses, again. You were introduced to someone only yesterday and you can't recall their name! Sound familiar? The sobering truth is that as we age, we can lose over half of our ability to perform tasks related to memory, learning and concentration. This process in cognitive decline can already begin as we hit our forties! Phosphatidylserine or PS is a nutrient that shows much promise in improving cognitive function in most people, but esp as we age. PS is a building block for nerve cell membranes which revitalizes all nerve cell functions and is highly concentrated in brain cells. PS give brain nerve cells renewed vigor and membranes and facilitate energy across the entire cell. Numerous double-blind studies with as many as 425 people show significant improvement in even severe cognitive impairment.

The harvesting of krill is regulated by the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR). Sunforce krill is harvested from the most pristine water on earth, using sustainable and ecologically sound high tech methods. **Krill oil is high in Omega-3 and some research points out that it reduces cholesterol and lowers LDL more dramatically than fish oil. Another is, krill contains an antioxidant called ASTAXANTHIN. The algae that krill eat produces the bright red pigment astaxanthin. Unlike many other antioxidant, aastaxanthin crosses the blood-brain barrier, where it could theoretically protect the eye, brain and central nervous from free radical damage. Unlike fish oil, krill doesn't cause fishy burps or an after taste. Not recommended for those with bleeding disorders.**

**Cut Fat & Hunger**

**★ STUDY FINDS CLA WORKS!**

**CLA (Conjugated Linoleic Acid) – “Supplement Helps Cut Fat, Study Finds” National Post 12/6/06; Van Sun, 12/23/06 & PBS TV broadcast Dec/06.**

Researchers at the Univ. of Guelph & Univ of Wisconsin-Madison, published in the International Journal of Obesity **in a six month study, found the group taking 3.2gms (3,200mg) daily of CLA lost 2.2 of fat with a tendency to shed it from the abdomen. The CLA group lost weight despite reporting 40% decrease in physical activity over six months.** “Despite no difference between the CLA and the placebo group with regards to calorie intake or physical activity throughout the study, the CLA group still managed to lose weight prior to the holiday season and didn’t gain any weight over the holidays”, said Andrea Buchholz, a professor of nutrition at Guelph Univ. She also said **CLA “increases fat-burning in the body”, and “It also keeps fat cells from proliferating and it causes pre-fat cells to kill themselves”.** She would still remind customers to continue with **exercise and dieting “You want to maximize it’s effectiveness”.** NPN #80017761

**★ IT REALLY WORKS!**

**★ DON'T EAT CARBS WITHOUT THIS**

**ADDICTED TO CARBS? TRY PHASE 2™ – Starch, carbohydrate and calorie blocker.** Are you trying to lose weight? But **love Pizzas, Breads, Pastas, Fries and lose weight doing it? Sounds Impossible?** This is how it works ... with Phase 2. Since starch makes up 25%-33% of most diet, taking Phase 2 will neutralize about 375 to 495 calories a day even if you make no other changes. That’s enough to lose a pound every 7-9 days. You will lose more if you make a few simple switches. Phase 2 means “dieters only have to shift calories not eliminate them”, says Dr. Rosen Blatt. “You shift your diet away from excessive non-starch calories, such as those in fat and sugar, and compensate by consuming more starch”. While starch and sugar are both forms of carbs, calories in sugar are NOT affected by phase 2. When it comes to **food like bread, pastas, Phase 2 will neutralize 75% of their calories leaving you with a far lower net calories intake than before.** This effect is **INSTANT AND SAFE!** Sold in Hong Kong as “Extrim” for double our price!
