60 Tablets = RRP \$39.90

Fight the virus, relieve symptoms fast, recover quickly

Ki Cold & Flu Attack

Fight the virus, relieve symptoms fast, recover quickly

NEW!

Ki Cold & Flu Attack Formula

Reduce the duration and severity of cold + flu

Ingredients:

Andrographis (KalmCold™) – 1.4g

- Immune stimulation for acute infections, lowers fever and is anti-inflammatory
- Andrographis KalmCold™ extract is **clinically proven** to reduce the severity of sore throats, fever, cough, headache and nasal discharge, along with improving sleep and fatigue during the common cold.

Fresh Ginger – 1.5g

- **Fresh ginger** is indicated in Traditional Chinese Medicine, at the first sign of cold & flu to relieve nasal congestion, cough, headaches and to induce sweating
- Shown to improve our natural immune response to attack the virus

Zinc – 30mg (6mg elemental)

- Provides support for immune function
- Helps to reduce the duration and severity of cold and flu symptoms.

Ki Cold and Flu Attack does not contain:

1. **Pharmaceutical Drugs** Paracetamol for pain relief or Pseudoephedrine and Phenylephrine to relieve congestion which are not suitable to take if you have high blood pressure. These drugs relieve symptoms but do not get to the cause of the cold & flu.
2. **Echinacea** A well researched immunity herb, but it's not known to reduce fever or relieve congestion and mucus. Recent research suggests this herb may be more suited to chronic infections rather than fast relief at the first sign of cold & flu.

Clinically Proven:

The **only product** on the market to contain **Andrographis (KalmCold™)**, combined with **Fresh Ginger**.

Clinical Research published in 2010:

A clinical trial of 223 patients with uncomplicated upper respiratory tract infection, where given Andrographis KalmCold™ extract 200mg per day (two tablets of Ki C&F Attack) or a placebo control, for 5 days treatment. The patients taking the Andrographis showed significant improvement in their symptoms when compared to the placebo control. KalmCold™ reduced the severity of sore throats, fever, cough, headache and nasal discharge and also improved sleep and fatigue levels. *

Fresh Ginger

Ki Cold & Flu Attack For **FAST** action:
